

NAMI Westchester, Inc. is an affiliate of the National Alliance on Mental Illness.

We provide support, education and resources to families and those living with mental health conditions.

Accomplishments 2015 - 2017

NAMI Westchester hosts a variety of presentation programs to help educate the community and promote awareness. Below you will see attendance growth of these programs.

Ending the Silence: This is a mental health and suicide prevention education program for middle and high school students. We also offer a complementary program for parents and staff.

In Our Own Voice: Two individuals living in recovery share their journeys and answer questions. This program is given in college classrooms, hospitals, libraries, and community agencies.

Community presentations: We provide presentations on mental health and suicide prevention throughout the community including hospitals, businesses, churches, colleges and at public spaces in Westchester.

NAMIWalks Westchester: 2018 brings our sixth annual walk, one of 83 nationwide; a fun community event that publicly raises awareness. We appreciate the efforts of walkers and the generosity of sponsors and donors to support the above programs.

COMING IN 2018: LUNCH & LEARN FOR THE BUSINESS COMMUNITY

Presentations to employees on mental health, suicide prevention and how NAMI Westchester can help
